<p style="text-align: center;">❓ solution ❓</p>
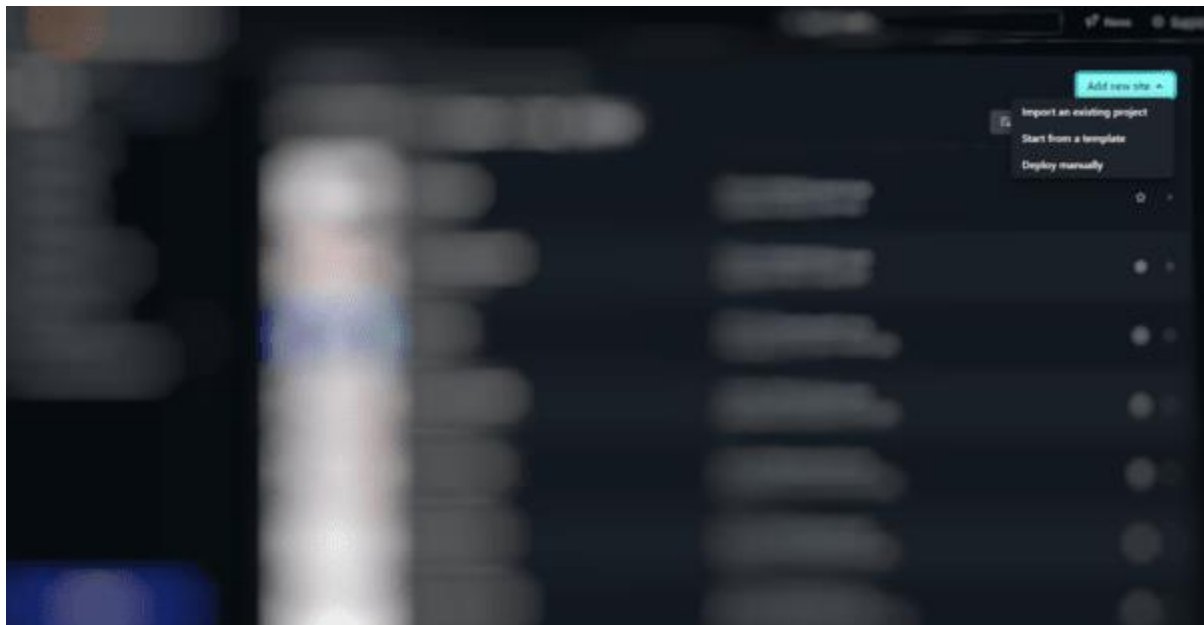

Step one : login/sign up to Netlify.com

   Here some students may face some problem signing up due to verification so you can tell all to do in a group

Step two : go to the sites option on the left-hand side

Step three: click on the button named "Add new site" drop-down and select Deploy manually

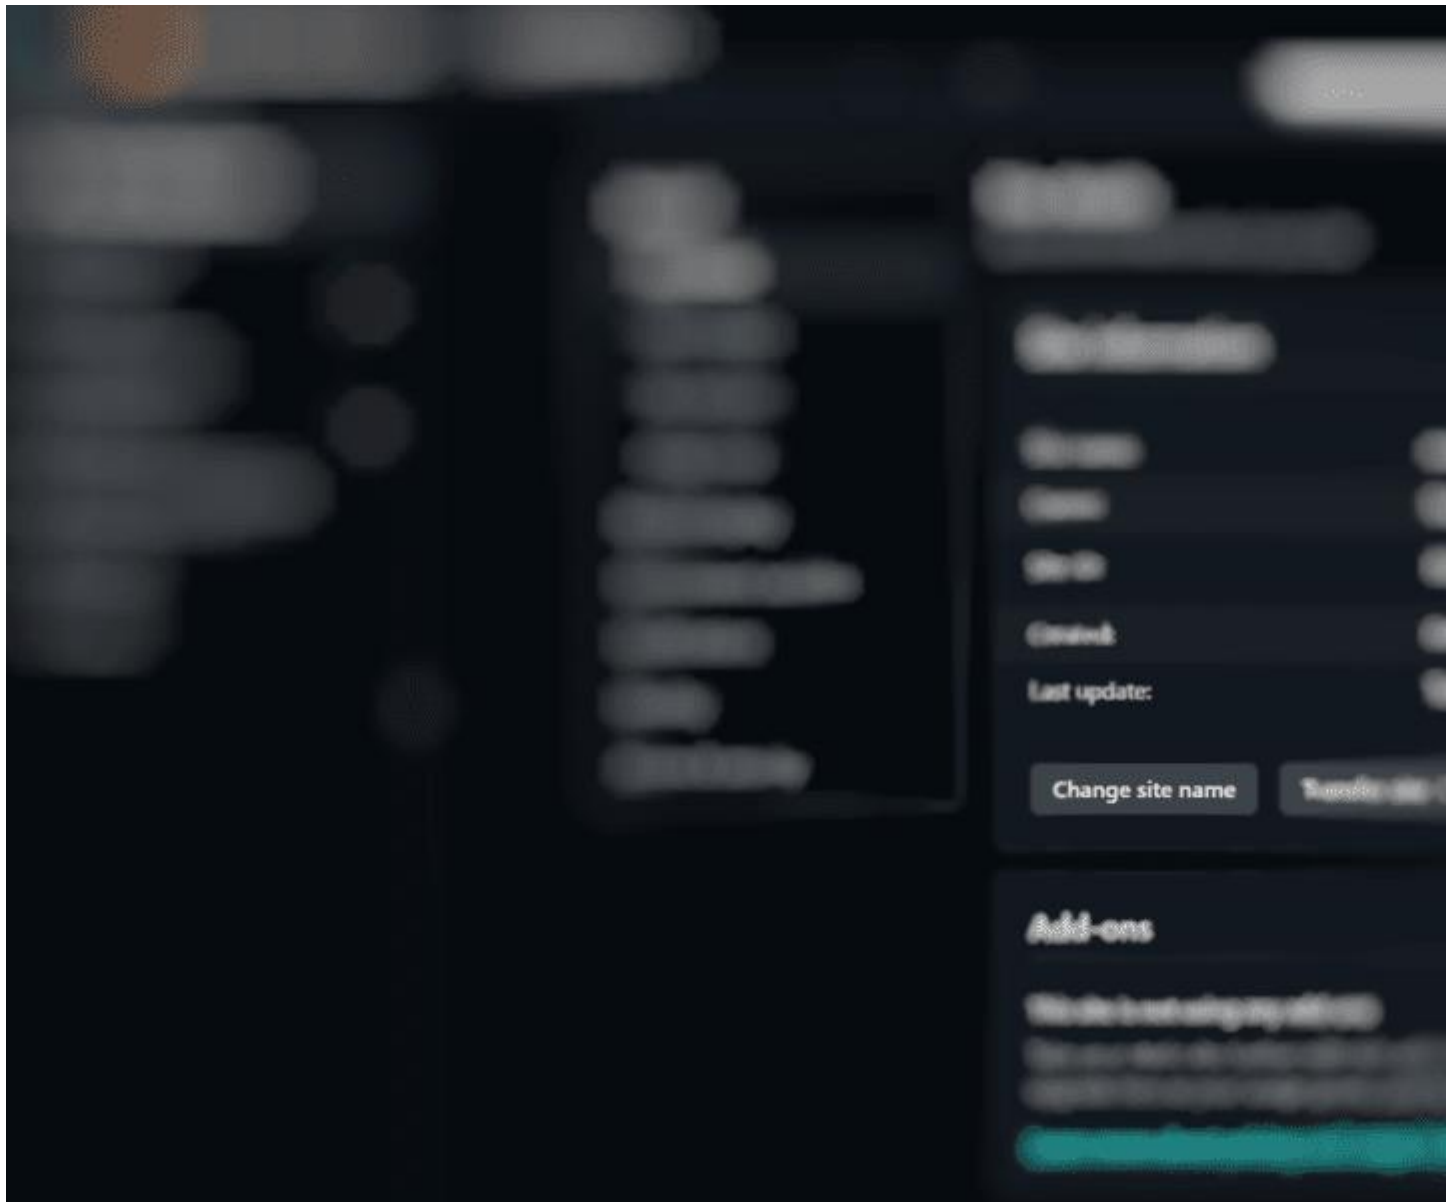

step four : drag and drop on the site

step five : after deployment go to the deployed site setting and click on site configuration

Step six: navigate to the change site name button

Last update:

Change site name
